Subject: **Answer to Explanation.**

Reference to your explanation letter dated Sep 4/2019 ,stating that negligence in duty such as Microplane validation and visit to faith healer Mr. shamimjan.

Dear sir, I have checked all Microplane of my concern areas and do corrections in it but according to my seniors there are still found some mistakes in Microplane and they do guide me accordingly.

1. Sir, I will do more concentration on Microplane and will fulfill the gapes and will also guide Area incharge accordingly to remove the mistakes in the Microplane.
2. Sir whenever I visit Mr. Shamimjan I never found him in his place but too many times I meet his son and I give zero report book to him and guide him about it and told him that plz give it to your father shamimjan but he still didn't inform his father about the book.

Sir his son is an educated person and can notify and report all the AFP cases. His father is an elutriate and cannot even fulfill the zero report so that's y I collect all the reports from his son because I guide him that if you found weakness in the patients comes to your father do notify and report it as soon as possible.

In the view of abow prevailing situation,you are requested to accept apology on our part.However,we promise that any deliberated laziness will be never witnessed on our part in future.

Obliged,

**Nowsher Ali**
