R/Sir

I hope you will be fine and apology for late reply because I was in the field and in our district there is no net facility when we are in the signal zone then we check our email. In response to the explanation, I would like to tell you that on 6th March I share NA children data in soft with our TCSP Qari Inam and on March 7 took patients to doctor with out approval but on 8th March I go back to field also visit CD Saam to collect zero report (9th March) but it was closed.

Respected sir every man has emergency but it does not mean that he is not interested in his job we always faced a challenge in polio. I realise that it was my mistake to take approval on 7th March but as * To error is human* next time no such grievances will come about me.

Faiz Muhammad UCPO
UC Speshteen
