

government officials would not include my home in Servey because new day they go to other village. I have a proof of date text message.

Firstly on Sunday 9th May I carried my motorcycle to doaba for maintenance and on the same day I back returned to my station and never ~~has~~ been left my duty station with out leave. I am leaving in very remote and Hard to reach area. There is a grave problem of tele communication services. Sometimes on time contact with office is difficult for me. Because the signal are very rarer.

Thanks and Regards
