Dear Faysal

Thanks for asking for Feedback but unluckily mentioned UCPO has not addressed the queries raised in explanation issued to him, rather he had presented his day to day routine affairs which also needed to be counter validated from NEOC app based data.

Meanwhile UCPO mentioned also had tried to approach CEO Health Lahore office in person through some political leadership and to me through fone call from some local politician; the details of which had been shared with WHO Provincial office HR as well as security Unit. And you can contact WHO HR Punjab for those details as well.

Thanks and Regards.
