Respected Sir/Madam,

I am thankful for sharing the concern raised on my professional responsibilities which resulted for the said explanation.

The data regarding COVID-19 vaccination at schools was desired. The information for data collection was shared on 27th December in the official group . On the very next day I was on leave and shared the required data on 29th December. The team have collected the data in two days and it is evident that dedication and fulfilling the job responsibilities are prioritized . We will put all our efforts to support and strengthen the program.

For any facilitation and further details please feel free to contact. The screenshot of the group correspondence regarding the data is attached for your consideration.

Best Regards  
Shafqat Ullah
