Dear Ghulam Hussain

Serious observations have been observed from field on day 1 and 2 of SNID june campaign by DDPO, Mr.Farooq TCO and myself

Dr Ayaz shared following observations on day

AIC Wahid hired from Dhabeji had no command in field as well as microplan

ASV Rasheeda was not available in field and when investigated she was at home without information

Her worker Ms Bhagi left field by 1 pm for her personal and you were unawares about it , Also other member Ghulfam was not in field

Observations by TCO Mr. Farooq on day 2

AIC bashiran Team # 72 poor cold chain management and no visit of AIC since day 1 of campaign

Team # 74 , finished work by 11 am

Observations by DDOSO Dr. Nadia

AIC Rasheeda Team # 104 Ibrahim Jokhio goth

No route map of team and poor cold chain management

AIC had no supervision and monitoring check list

AIC Wahid Achar Salar Goth

Not available in field

Team # 1 , in operational sheet 56 HH were mentioned for G2 category but in tally sheet worker did 83 HH and still 20 HH were remaining, when asked from team she said AIC gave me more than 100 HH that were wrong as per G category

AIC Wahid had no concept of Microplanning and said it was made by previous AIC of this area

Despite of providing maximum support from DEOC in precampaign phase still gaps were there and even you were not aware of areas of Ibrahim Jokhio Goth and didnt check and validate microplans. This showed your poor monitoring and supervision in field

You are directed to provide a written explanation regarding above issues within 24 hours of receiving this email

Regards

Dr. Nadia Khalid

DDOSO Malir
