

Statement ~~for~~ for Inquiry About the UCPO

→ It is hereby stated that on 12th September 2022, I was getting late for my duty in the morning. I informed the UCCO that I am getting late and will reach in a while. I reached the CD at around about 9:15 am but when I ~~was~~ came to mark my attendance, I witnessed that I was absent. marked by the UCPO.

I told the UCCO that I have been marked absent, and I cannot go to field being absent. He replied that let me discuss it with the UPEC. We waited for a meeting with the UPEC but she doesn't managed to give us time. Then the UCCO told me that let's go to field as I (The UCCO) and the staff knows that you are present today and try to not make an issue.

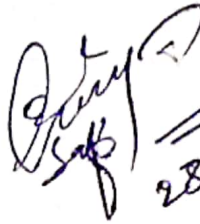

This is not the story of just a day. Whenever we gets late, or if I forget to share live location, or morning activities, The UCPO gets a point and makes an issue of it. In my Two Years of Service here, I have got an Explanation for sitting in Aitikeaf ~~as~~ as the UCPO reported me just for nothing and I was not sitting in Aitikeaf but was actively coming for my duty. I have even got a warning letter for not wearing a Face Mask reported by the UCPO. In short, he just waits to find a minor issue and make it Big.

There is only one issue that He got personal with us. and that is, that months ago the community elders reported us that your UCPO and an AS are in a relation. The community has witnessed them in the CD in the late hours and they have reported it to the MPA Asif Khan using very bad words for the CD.

We told it the UPEC and she got back the key of the CD from him. After that, He became very personal by reporting minor issues

and making small or nothing big. An Inquiry was conducted
too in this regard and Explanations were issued to them
but people and the community ~~are~~ are still talking about
their relation and their movements are still continue.
