Dear Dr Saab,

Find the attached statements for your information and necessary action, sorry for the delay some staff submitted their statements late.

Furthermore my stance will remain the same discussed in DEOC meeting, as per request of UC lead I checked AS level MP where two AS MP found

Fake and both AS didn't followed the protocols during MP preparations. Allegations by AS basria are that we are personal with her makes no sense. She was failed to justify on that day why she has so many discrepancies in her MP and start blaming her seniors and tore her MP and left the kit station.

Dear Dr Saab she is also a regular student in UOB doing MA Urdu regular and she didn't mentioned in her stance shared in DEOC, it is requested kindly deal the case as per organization defined protocols.

Respected sir,

It is to bring into your notice that in your presence that today was our desk validation of our Micro Plan at UC Level.

During desk validation two Area Supervisors Basria 2367A and Raiz 2360 Micro Plan were found Fake both AS didn't follow the program protocols to update their MP and the MC Data was not reflected in the operational and summary sheet and the data they provided in the MP were not matching with the MC Data.

In the desk validation we also checked AS Basira still missed children DSC data which was not matching with the MC Book still missed children which showed that she has provided fake still miss children during Oct SNID.

It was suggested by your good self to call both AS and prepare the MP as per guidelines under the supervision of TDO, AS Raiz remained absent and didn't came to field and AS Basria came to kit station and she started argument with me and giving lame excuses.

Dear sir AS Basria was not able to justify the fake MP and started aggressive attitude and she tore her MP in front of staff and left the field.

It is suggested kindly look into the serious matter and take action as per policy for providing fake MP targets, showing non serious attitude and misbehaving with her seniors.

Attached are the pics of MP for your information and further necessary action in the better interest of program.
