Subject: UCPO Tayyaba Uc1 Akhter colony Jamshed Town.

Dear sir

I am writing this in regards of UCPO Tayyaba Nawaz UC 1 Akhter colony Jamshed Town. There are few issues which I would like to highlight. She had briefed misinformation regarding AV children recording to CBV during 3 Days extended catchup activity. Email from UCcso is attached and I personally investigate this issue from Area supervisor, all 9 AS of UC 1 told me that she briefed them to do so.

Secondly, she sent me a WhatsApp(find attached pictures below) in which she had complain that she can't do all activities alone eventhough it is UCPO TORs to work in all Domain SIAs, AFP surveillance, and EPI activity.

Moreover, initially she was behaving appropriate but after probation period she has started same behavior for which her case was already discussed in CBV task team meeting as UCcso.

This is for your information and necessary action.

Regards
Dr.Farhat Jabeen

Dear sir

Kindly find an issue below details of SMC Data Discrepancy reported by UCcso Faiza from UC 1 Akhter colony Jamshed Town.

According to UCcso that this issue arises due to miscommunication and wrong instructions by UCPO Tayyaba during catch up activity in morning briefing.

On investigation with UCcso and Tayyaba asked from FLWs, most of workers replied that UCPO Tayyaba briefed them to record AV children in 2b form on mother statement if finger marking not seen.

As per discussion with you I already explain her, UCPO TORs and program SOPs.

This is for your information and necessary action

Regards

Dr.Farhat

Subject: Discrepancy in SMC validation

To: Ali Ahmed Khan <aliahmedk085@gmail.com>, Farhat Butt <dr.farhatjabeen@yahoo.com>

Cc:

Dear DHCSO/PEO,

This is writing to inform you that during NA/Ref houses Validation I have found SMC covered according to mother statement as CHW was not seen the finger mark of the child total 4 children found by me during validation.

When asked from teams why they give coverage without seen the FM of the child they said UCPO given this instruction on 10/1/2020.

As Naseer and me were engaged in Extended catchup Activity in HR UCs. I was assigned in refusal conversion Activity in UC 11 Garden East-11 and UCCSO Naseer was in HR UC of Gulshan Town.

UCPO Tayyaba was leading the SMC coverage of UC 1 Akhter Colony.

Data Details which are validated by me.

CHW 10 (HNO. 104)

CHW 4 (HNO. 265)

CHW 33 (HNO.259)

CHW 20 (HNO. 349)

These houses covered on mother statement no FM seen by CHW.

Kindly look into this matter.

Thank you
