Totally disagreed and disappointed by her response.

She didn't worked on MP in pre campaign as on route maps, HH registration and social mobilization not improved.

I always asked that do work accordingly but she took it non serious!

Always meeting minutes shared by other UCPOs for weekly meeting except few times.

Not communicated things timely and not first to PEO (immediatesupervisor), I always found things by other partners staff of her UC-7.

Whenever I asked why u didn't informed than she replied sorry next time will do, I have all records.

Many times came late and when I asked why than she told due pain etc no timely information.

In this campaign she didn't informed or zero coordinated any issue to me directly although all UCPOs asked many times during campaign but not by her.

Also few main observation hidden by her.

One very unnecessary issue she shared with DPCR prior to discuss me (that against me and independent monitor as that was operational failures).

She didn't support to independent monitor during campaign also actually indirectly harassed to that monitor.

She knows ver well about her UC than independent monitor but didn't picked and not shared any big observations although on daily basis independent monitor digout many important issues and shared.

I have no trust on her because she is not following organisation's SOPs and not working like UCPO as she is more sincere with other partners and following them.

Note:

In this and previous campaigns, she didn't monitored and picked good observations, actually involved to hide UC's issues.

I am totally unsatisfied from her work, attitude & behaviour and so can't rely more on her.

Dr Abid Ali.

Dear Sumaira,

UCPO UC-7, Liyari

As I have discussed on many occasions, meetings and trainings that micrplanning is overall responsibility of UCPOs and have to lead prepare MP at UC level.

As I have joined in April but consistently seen same issues of MP in your UC.

In attached your sheet issues are pertaining on same place and not improved as below:

- * Poor route maps,
- * Gaps in operational sheets,
- * Incompleted social mobilization,
- * ASs M & Sup plans are cut pasted,
- * Errors in registration books.

I have trained you and given verbally warnings that issues of MP should not be in your UC.

Your compliance is very poor.

I found very non serious to follow your SOPs and didn't followed your immediate supervisor's instructions after many reminders.

Thanks

Dr Abid Ali.
