Respected ma'am

This is with reference to continuation of show cause and warning letter to SW Ammar. I would like to draw your attention that SW Ammar is still not following the protocols of leave, he is not coming on time at his duty station and mislead about his timing and also he is not reporting according to the set guidelines. Multiple times he is guided and warned as well but there is no improvement in his behavior. He is also not paying attention in reporting on engage application. QC team findings were shared with him and guided him but there is no improvement.

Below is details of check in and check out in engage application
