**Subject: Reply to explanation letter 3<sup>rd</sup> May 2023**

Dear Jaweria,

As per the explanation letter regarding my job as TPO, first of all I would like to say that it was SNID April day first dated 10<sup>th</sup>. I was being given task of supervision for UC Lachra on the said date by DEOC plan shared viva district coordinator WHO Dr Nabeel Liaqat. I joined morning assembly and after that the UPEC meeting as well as two monitors from partner staff were just shuffled for the said campaign, name Rais and Ghazi so that was must to make them familiar to the UPEC IC and consisted staff. During field by chance I met an external monitor Dr Umar from NEOC, he asked me about why I am not filling the checklists on the spot? So that I said that I writing in my dairy the findings and will upload after once I will join the fix site, but the monitor said that I would have forgot main points and he was right. I accept my mistake that I should have filled online checklists on the spot or have to fill in hard format for proper remembrance. And from the said date of 10<sup>th</sup> April I followed the directions on the spot filling of formats. Here in explanation letter I assure my higher ups and Management that in future it will not happen again. Please feel free to ask if there are any quires I will be more than happy to clarify

Professional Regards
