

Reference to Letter No. CTC 7.12.5-Nazeem Khan-SF/SA Explanation Letter-Mar 2020 regarding Letter on account of Professional Negligence on 23rd March 2020.

In this regard it is submitted that I have always performed my duty in well manner as per SOP and feeling proud to work with you.

Before, to explain my position, it is to inform you that I am performing duty as UCPO Warsak where no cellular network coverage exist and for communication we travel 30 minutes for communication during pre campaign, during campaign and post campaign.

During campaign we communicate our team deployment status at morning. On day 3rd of campaign I submitted team deployment status as all team were deployed but 02 teams were present at Health Center waited for AIC. That's why I sent complete report of team as AIC was on the way to Health Center. I always reported issues to UCMO at Evening meeting during campaign, UCMO resolves the issue on the spot and when issues not resolves at UC Level, then I further report to High-up's.

During campaign we submit our clusters with DPCR Data TTM via SMS on a format, and then we submit our cluster after campaign with TCSP. The same cluster also sent via SMS to Data TTM at DPCR. TTM enter the requisite data from SMS and incorporate it in the ICC Clusters. Then I submitted my cluster in hard form to TCSP.

Submitted for your kind information with humble request not to take action against me please.

Nazeem Khan
