Respected Sir

It's very difficult for me to write about the matter which is totally in dark and nothing still shared with me, I don't know on which policy based the matter is being not disclosed.

So I am trying to tell the recent problems that me & my family is facing, I may guess that matter could be from a girl named sahiba. Me & sahiba were close friends and decided to get married as her family respond to the marriage call. Furthermore I want to tell you that we were in relationship more than 3 years and we were agreed to have married life, his family is already know about this affair, now recently there were some

misunderstandings created by third person's and since than we are in conflict situation. I would like to tell you that this matter is already been taken at a influencer named Muhammad Juman Darwan and as well as other family members are taken it to resolve the issue, moreover I also received threats from herself & her friend whom she now wants to Marry.

Respected Sir all the evidences like screen shots voice call recordings are available to prove this matter is personal and not just from my side.

You are requested to conduct a meeting with me so can provide you all the related documents & facts.

Hope you will understand the situation and anything else you want to clarify from my side I am available for you at anytime.

Regards
