Time: 60 Minutes

Total Marks: 50

Attempt all questions. The answers should be in asked format.

Roll # 103

Applied for (Union Council): Mughalki

**Instructions for Candidates:**

Welcome to the assessment centre, the test will approximately take around 1hr having. **The test is to be attempted on the test sheet provided to you by the invigilator.**

Kindly note that this is a confidential document and should be submitted back to the invigilator on completion of assessment.

Kindly conform with the instructions and address any queries you have to the invigilator.

**In case you are found cheating / hampering the process of assessment in any way your test assessment will be cancelled and you will become ineligible for any further positins under the program**

Section A: Objectives

5

2. No. 1- A)- Choose the Correct Answer from the following: 01 Marks for each-  
(Total Marks-05)

1.1. What side effects can occasionally occur after IPV administration? ✓

- a. Pneumonia
- b. Paralysis
- ✓ c. Minor side effects like soreness and fever

1.2: Select the main reasons for introducing IPV in the national immunization program ✓

- a. Reduce risks of an outbreak after type 2 OPV vaccine withdrawal (tOPV-bOPV switch)
- b. Help stop outbreaks quickly if type 2 virus is reintroduced
- c. Boost immunity against polio types 1 & 3 to protect populations and hasten eradication

✓ d. All of the above

1.3: What is the preferred route of administration and injection site of IPV? ✓

- a. Oral.
- ✓ b. Intramuscular into the thigh.
- c. Intramuscular into the upper arm.
- d. Intradermal into the upper arm.
- e. Subcutaneous into the upper arm.

1.4: What information is provided by the immunization card? ✓

- a. Child's date of birth
- b. Vaccines already received
- c. Vaccines needed for the future
- d. Next appointment for vaccination

✓ e. All of the above

1.5: How should multiple vaccines be administered to an infant in one session? ✓

- a. Do not give IPV and other injectable vaccines at the same visit.
- ✓ b. Give oral vaccines first, then inject the infant with each injectable vaccine separately.

able vaccines into the same syringe

17) Mark as true or false (10 marks)

1: Anti polio campaign activities may include:

- a. Promoting use of antibiotics True ✓
- b. Routine immunization against polio False ✓
- c. Running awareness campaign against polio True ✓
- d. Campaign for improving personal hygiene & sanitation False ✓
- e. Mass vaccination to under six months children only False ✓

2: Most effective way to deal with families refusing polio vaccination to their children could be

- f. Using police force - False ✓
- g. Using community influencer - True ✓
- h. Providing information regarding effects of polio vaccine - True ✓
- i. Providing incentives in form money to convert - False ✓
- j. Threatening to take legal action against the family - False ✓

C)- Write correct abbreviations of the following (Marks-05)

- NIDs National Immunization days ✓
- SNIDs Sub National Immunization days ✓
- LQAS Lot Quality Assurance Sampling ✓
- EOC Emergency Operational Center ✓
- AFP Acute flaccid Paralysis ✓

Q. No-02)- What does AFP stands for and how will you facilitate the AFP Surveillance? (list down steps. (Marks -7)

Q.NO.4)- Look at the data in the table below from your district, as a UCPO prioritize the UCs ranking 1 to 4 in order for polio high risk with reference to communication, support you answer with data. (Marks -8)

8

	Target population (<5 children)	Total refusals Recorded	Reasons for Refusal				Awareness about Polio	SM/AS Posted
			Religious	Demand	Repeated Campaign	Unknown		
UC1	7,977	908	10%	15%	15%	60%	10%	45
UC2	1,566	65	30%	7%	43%	20%	54%	3
UC3	1,399	98	9%	61%	30%	0%	75%	3
UC4	1,566	313	25%	25%	28%	22%	5%	3

**Q.No.5)-** Write a letter to your supervisor regarding the poor performance of one of your Area Supervisor, asking him for termination of his contract. (10 Marks)

P: Acute flaccid Paralysis:  
The age of 15 year child from Peruru  
Six months and organ of body, weakness or  
weals, it should be reported to D.S.O or I.D.  
or D.H.O staff.

When a child A.F.P. we should report  
on time within on the spot, we collected 2 stool  
collections we see the nature of A.F.P child for  
example. injection neuritis, C.B.S. Truoma, etc.

The District Surveillance Officer investigate the child  
and collect the stool sampling. After 6 days  
the Surveillance Officer visit the child's  
Polio Vaccination Point of View, and Routine immunization  
Point of View the Dist Surveillance Officer check the  
History of child, R.I Card, how many doses  
are received, in D.H.O, RHC site the Surveillance  
Officer checked the Blue Book, Line List, OPD, registers  
and visit to different wards.

Two Types of Surveillance. I Active  
Surveillance II Passive Surveillance.

⇒ Active Surveillance, R.H.C. D.H.O.  
B.H.U. C.D. and other functional EP I  
Center, the Surveillance Officer weekly visit  
the active site in event weals.

⇒ Passive Surveillance

Community based Surveillance

L.H.U.s, H.L.H.s etc. it is Passive Surveillance  
Community based Surveillance, EPI  
Also is the main pillar of strong active surveillance  
The District Surveillance Office visited every  
week in active site, when L.H.W. L.H.S.  
EPI Teh, reported an A.F.P Case the  
Surveillance office took Tubs sampling from  
affected child in UD tubers then stool collected  
they send to N.I.H, National Institute of  
Health, for strong active vaccine immunization  
and Polio Campaign AFP Surveillance very  
mandatory and Massenet and Compulsory.

⇒ Blue Book

⇒ Line list

⇒ Weekly zero reports

⇒ Different wards visit

⇒ Active Surveillance

⇒ Passive Surveillance

⇒ Community based Surveillance  
these are the main components for active  
site surveillance

5

listed  
active  
EPI  
Passive  
every  
in UIC there are 4 types  
of Refusers.

Religious Refusers = There are 25%  
in the Campaign our main duty and responsibility  
to meet the local Imam or Masjid <sup>Shateeb</sup> for  
strong coverage of Religious Refusers coverage: (5)

⇒ Demand based Refusers we will look  
this demand is the demand are vaccine immunization  
point of view we will facilitate the EPI let  
or L.H.W if the demand other personal good  
we will report to D/C A/C and high authority

⇒ Repeated Campaign = Repeated Campaign  
Point of view Refusers we conduct the awareness  
and strong Mobilization sessions to solved  
the Misconception of Campaign awareness session  
and Mobilization are the main pillar.

⇒ Awareness  
we should <sup>the</sup> modified and identified  
from through L.H.W.S

4

Q. No. 1- A)- Choose the Correct Answer from the following: 01 Marks for each- (Total Marks-05)

1.1. What side effects can occasionally occur after IPV administration?

- a. Pneumonia
- b. Paralysis
- c. Minor side effects like soreness and fever

1.2: Select the main reasons for introducing IPV in the national immunization program

- a. Reduce risks of an outbreak after type 2 OPV vaccine withdrawal (tOPV-bOPV switch)
- b. Help stop outbreaks quickly if type 2 virus is reintroduced
- c. Boost immunity against polio types 1 & 3 to protect populations and hasten eradication
- d. All of the above

1.3: What is the preferred route of administration and injection site of IPV?

- a. Oral.
- b. Intramuscular into the thigh.
- c. Intramuscular into the upper arm.
- d. Intradermal into the upper arm.
- e. Subcutaneous into the upper arm.

1.4: What information is provided by the immunization card?

- a. Child's date of birth
- b. Vaccines already received
- c. Vaccines needed for the future
- d. Next appointment for vaccination
- e. All of the above

1.5: How should multiple vaccines be administered to an infant in one session?

- a. Do not give IPV and other injectable vaccines at the same visit.
- b. Give oral vaccines first, then inject the infant with each injectable vaccine separately.

Mix all injectable vaccines into the same syringe

B) Mark as true or false (10 marks) (3)

1: Anti polio campaign activities may include:

- a. Promoting use of antibiotics = False ✓
- b. Routine immunization against polio = False ✓
- c. Running awareness campaign against polio = True ✓
- d. Campaign for improving personal hygiene & sanitation = False ✓
- e. Mass vaccination to under six months children only = False ✓

2: Most effective way to deal with families refusing polio vaccination to their children could be (5)

- f. Using police force = False ✓
- g. Using community influencer = True ✓
- h. Providing information regarding effects of polio vaccine = True ✓
- i. Providing incentives in form money to convert = False ✓
- j. Threatening to take legal action against the family = False ✓

C)- Write correct abbreviations of the following (Marks-05) (5)

- NIDs National Immunization days ✓
- SNIDs Sub National Immunization days ✓
- IQAS Lot, of Quality assurance Sampling ✓
- EOC Emergency operation's Center ✓
- AFP Acute Flacid Paralysis ✓

Q. No-02)- What does AFP stands for and how will you facilitate the AFP Surveillance? ( list down steps. (Marks -7)

Q.NO4)- Look at the data in the table below from your district, as a UCPO prioritize the UCs ranking 1 to 4 in order for polio high risk with reference to communication, support you answer with data. (Marks -8)

Union Council	Target population (<5 children)	Total refusals Recorded	Reasons for Refusal				Awareness about Polio	SM/AS Posted
			Religious	Demand	Repeated Campaign	Unknown		
UC1	7,977	908	10%	15%	15%	60%	10%	45
UC2	1,566	65	30%	7%	43%	20%	54%	3
UC3	1,399	98	9%	61%	30%	0%	75%	3
UC4	1,566	313	25%	25%	28%	22%	5%	3

**Q.No.5)-** Write a letter to your supervisor regarding the poor performance of one of your Area Supervisor, asking him for termination of his contract. **(10 Marks)**

Q25

Ans: AFPs - Sudden onset of flaccid weakness due to any reason  
age 15 years  
order 15  
duration is 6 months

→ Acute Spinal Paralysis

⇒ For AFP Surveillance we should Sensitized all

the health care staff - i.e. Pharmacists, Nurses,  
Liaison and Doctors.

⇒ we should do the awareness session regarding

AFP Surveillance with local health care provider

(HCP) for the sensitization purpose

Q26

⇒ we should provide knowledge that how to  
report AFP children within the community  
with the help of IEC materials.

⇒ AFP Surveillance is an ongoing systematic

collection and collation of data and dissemination

of information from every grass root level.

⇒ we should facilities our DSO and IO when

they do visit on hospital and check the

Pharmacy and AFP registers. (Active Surveillance)

⇒ we should send our facility Zero report

on time and filled properly

(Passive Surveillance)

Qn

Ans

⇒ UC2 is at high risk because a large

number of refusals reported. (313)

⇒ UC1 is at risk due to less awareness (5%)

about Polio vaccination

⇒ UC3 is at risk due to less number of

<sup>SM/As</sup> human resource supports staff. I am sharing

the information about human resource because the main reason is less awared people about

Polio vaccination. That's why I have categorized

the UC is at high risk. We need country engaged session and social mobilization activities for awareness of people.

⇒ UC4 :-

⇒ UC1 is ~~at~~ on 2nd number in high risk category

due to large number of refusals (408)

⇒ and less awareness about Polio vaccination 10%

⇒ here is some major issue about human

resource which is supports staff but

they are not performing their duties because

awareness regarding Polio vaccination is just

10%

⇒ need of social mobilization activities for awareness of people.

UC2 :-  
this awareness which

(15)

UC2:-

⇒ this UC falls in 3rd category due to awareness percentage about Polio vaccine which is 54%

⇒ Support staff is just (3) need some support staff

⇒ Target is 1566 and refusals are 65% ~~we~~ need awareness and community engaged session

⇒ UC3:-

⇒ falls in category (4) due to number of aware people about Polio vaccination

⇒ if we want our country Polio free we should aware people about Polio vaccine and routine immunization

UC = Target = 1799 and refusals are (98)  
UC has less less risk because of 75% people is aware regarding Polio vaccination (6)

(P.T.O)

Q5 ⇒ Letter

Supervisor - X-Y-Z.

Address = A.B.C

Date = 27.8.2021

Subject :- Request for termination of Supervisor-A

Dear Sir,

It is a kind request that Supervisor A who is working since from April 2019 in our Union Council -

Sir, he is not performing his duties as per guidelines. Sops. myself support him in every aspect for his Capacity building but he could not show his

interest for his assign work and made some major mistakes blunders. I gave lot of time that he will be improve their skills but he failed.

Dear Sir kindly issue him the letter regarding his Contract Conclusion or termination.

Thank you  
Yours Sincerely.

A.B.C
