C)- Write correct abbreviations of the following (Marks-05)

SNIDS
AFP
RCM
LOAS
PEI.

Supplementary National immunization days. (4.5)

Acute Flaccid Paralysis. (0.5)

Rapid compar monitoring

Lot & Quality Assurance supplying

Polio Eradication initiative.

Q.NO.2:) Write Short answers of the following Questions- (Marks- 10)

- 2.1- Difference between missed children, chronic missed children and still missed children: (3)
- 2.2- Why is polio vaccination being done repeatedly? (3)
- 2.3- What is zero Dose & how to identify, vaccinate & record it. (4)

Q. No 5) Are local workers creating Fake Vaccination issue? If yes, then what should be the way forward to deal with such issues? (Marks 10)

Q. No-6 What does AFP stands for and what are the steps to facilitate the AFP case ? (list down steps? (05)

Q2 write short Ans of the following Questions.

Q 2.1 Ans:: missed childrens mean not available (NA) + Refusals childrens, But chronic missed children means, Religious Refusal, Highly misconcep children which have reported more than 2 Campaign regularly.

still missed :: still missed children means that after catchup Activites the are remain NA or Refusal they says still missed childrens:

Q 2.2 why polio vaccination being done repeatedly?
Ans :: presenty polio mylitis virus present in Pakistan, and for eradication repeatedly

polio vaccination necessary Because the polio mylitis virus (opv doses) protect the child himself for one month and also the community children. they opv Dose vaccine present the intention of the child, they Defeted the polio virus.

Q 2.3 What is Zero Dose, how to identify, vaccinate, and record it.

Ans: Zero Dose mean the child of Birth to 23 months which have NO Routine immunisation one Dose given just like NO ~~R1~~ cards, NO BCG NO, Pentax vaccination done, is the same child recorded during OPV Campaign on the Tally sheet with name, parent Name, address and parent mobile number. To prepare Zero Dose ~~the~~ list For EPi Tech: to vaccine the the Zero Dose children with OPV Drop and put record on the epi register Book.

Are local workers creating fake vaccination issue? if yes then what should be the way forwarded to deal with such issues.

Ans: Yes in some Areas local workers

Creating Fake vaccination due to the

Following Reasons:

(1) Some time community refusals Families Threatened the worker to not vaccinate children only do Finger marking.

(2) Some time local worker have Relationship with the Refusal Families so they compromise on Fake vaccination the solution of such types issues.

(2) During monitoring first identify such type issue and then inform ucmo and AIC and concern officer then, Brief the worker to report the family, now no police force should be used gain the refusal the Refusal Families will and with help, DPCE we resolved the issue and no more comp

Q6 What does AFP stand for and what are the steps to facilitate the AFP case.

Ans:

AFP: AFP stands for

Acute Flaccid Paralysis.

(i) 5% (ii) 50%

A child under fifteen years suddenly weakens in any part of a body.

include EBS. We should report it ~~it~~ and not spent 6 months on the case.

Facilitations steps:

(3)

(1) Report the case first with full details and inform memo

and DSO about the cases with in 14 days

they have two types acute case which have all process completed under 14 day

and inadequate case which the onset more than 14 days so 2 stool symptoms of in affected child and 2 more one one simple of the relative children be taken.

(2) Report the case (2) investigation (3) stool culture (4) stool revealed for with (5) consultation of exi
