

UCPO Test-Paper

Time: 60 Minutes

Total Marks: 50

Attempt all questions. The answers should be in asked format.

Roll # 15

Applied for (Union Council): Al-Masjid B

Instructions for Candidates:

Welcome to the assessment centre, the test will approximately take around 1hr having. **The test is to be attempted on the test sheet provided to you by the invigilator.**

Kindly note that this is a confidential document and should be submitted back to the invigilator on completion of assessment.

Kindly conform with the instructions and address any queries you have to the invigilator.

In case you are found cheating / hampering the process of assessment in any way your test assessment will be cancelled and you will become ineligible for any further positins under the program

Section A: Objectives

QNo.1-A: Multiple Choice Questions, please choose one answer (5 Marks)

(3)

1 Which of the following is not included in verbal form of message?

- A. Books ✓
- B. Face to Face talk
- C. Facial expression
- D. Eye contact

2: Polio cannot be prevented by

- A. Vaccination against polio ✗
- B. Hand washing after cleaning a child
- C. Safe drinking water
- D. Using mosquito nets
- E. All of above

3: Number of routine immunization doses for Oral Polio Vaccine in Pakistan are

- A. Three
- B. Four
- C. Five
- D. Six ✗

4: Social Mobilization for polio comprises of:

- A. Engaging Community Influencers
- B. Conducting awareness raising sessions
- C. Utilizing existing community based organizations
- D. Sensitizing religious leaders on polio
- E. All of the above ✓

5: While giving polio vaccine, it is important to remember that

- A. It is stored at room temperature
- B. Each child gets four drops of polio vaccine
- C. It is given to the child in sunlight
- D. None of the above ✓

(3)

B): Fill in the blanks (5 marks):

- a) Distributing Mosquito Nets is necessary part of polio campaigns True ✗
- b) During polio campaign OPV drops are given to all the less than five years old children True ✓
- c) Polio disease is caused by Mosquito Bites False ✓
- d) Improving personal hygiene & sanitation will result in decreasing polio cases False ✗
- e) Vitamin A cannot be given during polio campaigns False ✓

Q. Write correct abbreviations of the following (Marks-05)

UNICEF

EPI

LQAS

EOC

RCM

United Nations International Education Fund.
Expanded program on immunization ✓
Lot Quality Assurance Sampling ✓
Emergency operation center ✓
.....

Q.No.2) Write Short Answers of the following Questions- (Marks-10)

- 2.1- How does polio spread? 2- Marks
- 2.2- Differentiate between IPOV & OPV Vaccine administration? 3- Marks
- 2.3- Briefly explain the effectiveness of IPV vaccine? 2- Marks
- 2.4- What is zero Dose & how to identify, vaccinate & record it. 3-Marks

Q.No.3)- What are creative methods to access the following target population groups: (Marks-10)

religious. ethnic minority groups
Romate. refugees. undocumented
rarity-workers. harvest
urban

Q.No.4)- Enlist Issues during same day coverage & compilation of data? (Marks-05)

Q.No.5)- Write a letter to your supervisor regarding Fake data reporting of one of your ALSM, asking him for issuance of warning letter to him (Marks- 10)

Q 2 Short question

2.2. difrent blw IPV and OPV

Ans. Its two types of routine Immunization.

- ① IPV - یہ ویکسین کے ذریعے لگائے جاتے ہیں
- ② OPV oral polio vaccine - یہ پی پی کو منہ کے ذریعے لگائے جاتے ہیں

2.3. Briefly explain of IPV vaccine.

IPV - یہ ویکسین کے ذریعے لگائے جاتے ہیں۔ ان سے خطرناک بیماریوں سے نکلنا ہے۔
Routin immunization کے طور پر لگائے جاتے ہیں۔ ان سے خطرناک بیماریوں سے نکلنا ہے۔
کھانسی - پولیو - خناق - ٹائیفائیڈ - قسہ - خونریزی - کالی کھانسی
حالات پریشان - گردن ٹور جھار - سہان - تشنج

+ soon after birth BCG

pentaval 1 : 10 دن بعد

pentaval 2 : 15 دن بعد

pentaval 3 : 14 دن بعد

قسہ = 9 ماہ بعد

قسہ = 15 ماہ بعد

2.11. polio spreader.

Polio is a virus disease @ its effected under five years old child. because its Emunity system was weak.
Fever. headache. pain in arm and leg.

24. What is zero dose.

جواب:- Zero dose وہ ہے جو کہ بیونا جو اپنے زندگی میں آپ بھی
دفعہ نہ دیکھیں اور لگائی ہو اور نہ قطرے پو پو نہ دیکھے ہوں۔
ان کو zero dose کہتے ہیں۔ یہ بھی monitoring کے ذریعے
Identity کے ساتھ۔
ICM - PCM - Iqas.

جواب:- یہ وہ آئیڈیاں ہوتی ہیں جو HRMP کہتے ہیں۔
جو مناسبتوں ہوتی ہیں ان Teams بنائے ہیں اور ان کو پو پو قطرے
پہلاتے ہیں، اور جو عذیبی افکاری ہوتے ہیں۔ ان کو conveniences
کے لیے ALM اور VCP کے ساتھ ہیں۔ ان کو conveniences
قطرے دیکھے جاتے ہیں۔

Attempt all questions. The answers should be in asked format.

Roll # 17

Applied for (Union Council): All majid B.

Instructions for Candidates:

Welcome to the assessment centre, the test will approximately take around 4hr having The test is to be attempted on the test sheet provided to you by the invigilator.

Kindly note that this is a confidential document and should be submitted back to the invigilator on completion of assessment.

Kindly conform with the instructions and address any queries you have to the invigilator.

In case you are found cheating / hampering the process of assessment in any way your test assessment will be cancelled and you will become ineligible for any further positins under the program

:not for if it nab i

Q No. 2.3 Effectiveness of IPV vaccine:

Ans: The Effectiveness of IPV vaccine is that IPV inactivated polio vaccine which ~~is~~ very effectiveness for the ~~the~~ under two years children.

IPV vaccine in Routine immunization involved which injected after fourteen week.

IPV vaccine safe for child 60 percent due to IPV vaccine involved in blood in the children.

Q24:

Zero Dose:

Those children whose ages are less than (23) twenty three months no any injection have injected.

Identification:

identification of Zero Dose children is that, where the right shoulder have no injected BCG injections.

only BCG identification to know Zero Dose child. those children which have no BCG injection on their right shoulder we report it and add to a Zero Dose list in Excel sheet.

Section A: Objectives

QNo.1-A: Multiple Choice Questions, please choose one answer (5 Marks) (1)

1 Which of the following is not included in verbal form of message?

- A. Books ✓
- B. Face to Face talk
- C. Facial expression
- D. Eye contact

2: Polio cannot be prevented by

- A. Vaccination against polio X
- B. Hand washing after cleaning a child
- C. Safe drinking water
- D. Using mosquito nets
- E. All of above

3: Number of routine immunization doses for Oral Polio Vaccine in Pakistan are

- A. Three X
- B. Four
- C. Five
- D. Six

4: Social Mobilization for polio comprises of:

- A. Engaging Community Influencers
- B. Conducting awareness raising sessions
- C. Utilizing existing community based organizations ?
- D. Sensitizing religious leaders on polio
- E. All of the above

5: While giving polio vaccine, it is important to remember that

- A. It is stored at room temperature X
- B. Each child gets four drops of polio vaccine
- C. It is given to the child in sunlight
- D. None of the above

B): Fill in the blanks (5 marks): 5

- a) Distributing Mosquito Nets is necessary part of polio campaigns False ✓
- b) During polio campaign OPV drops are given to all the less than five years old children True ✓
- c) Polio disease is caused by Mosquito Bites False ✓
- d) Improving personal hygiene & sanitation will result in decreasing polio cases True ✓
- e) Vitamin A cannot be given during polio campaigns False ✓

Q No 2.1:

Q No 2.1: polio spreads:

Ans: polio spread by the following resources.

- ① stool polio spread due to stool.
- ② polio spread due to air in an environmental status.
- ③ polio spread due to fluid, which contact to the children surrounding.
- ④ polio spread in the community from one child to another child due to the way of stool.

Q No 2.2 IPV Administration:

Ans: IPV = inactivate polio vaccine.

Admi: IPV vaccine is used in left thigh of the child due to injection during the routine immunization.

OPV: - OPV mean oral polio vaccine

Administration: OPV vaccine is administrated and used oral polio vaccine.

Front line worker vaccinated the children by oral polio vaccine due to the mouth which start after birth.

3-5

C)-Write correct abbreviations of the following (Marks-05)

- UNICEF United nation children fund ✓
- EPI Expanded programme on immunization ✓
- LQAS Lat.: Quality assurance Sampling ✓
- EOC Emergency operation center ✓
- RCM Regional center management X

Q.NO.2:) Write Short Answers of the following Questions- (Marks-10)

- 2.1- How does polio spread? 2- Marks
- 2.2- Differentiate between IPOV & OPV Vaccine administration? 3- Marks
- 2.3- Briefly explain the effectiveness of IPV vaccine? 2- Marks
- 2.4- What is zero Dose & how to identify, vaccinate & record it. 3-Marks

Q.No.3)- What are creative methods to access the following target population groups: (Marks-10) Religious and ethnic minority groups, Nomads, Refugees, and IDPs, { urban city like A. families working in the Harvest

Q.No.4)- Enlist Issues during same day coverage & compilation of data?(Marks-05)

Q.NO.5)- Write a letter to your supervisor regarding Fake data reporting of one of your ALSM, asking him for issuance of warning letter to him (Marks- 10)

creative Method: Religious and Ethnic Group { others

The following are the creative method to solve the Religious and Ethnic Groups.

- 1) Community engagement session
- 2) Religious influencers meeting.
- 3) Meeting During SIAs Campaign
- 4) conducting Awareness raising sessions.
- 5) utilizing existing community base organization.
- 6) sensitizing Religious Leaders on Polio.
- 7) Teacher session in the 3 school round about the all children which admitted in the school.
- 8) madrasa session among the religious teachers and front of the madrasa students.

Q4:

Same day coverage issue:.

Ans. in Same day coverage issue created due to the misbehavior of front line worker and create IPC inter personal communication.

All workers in the field recorded and fill the NA list during Campaign. Not follow the CUS community vaccine site directly go to support center. Supervisors not give the guideline to front line worker. When supervisor motivate the worker in the field about the same day coverage then worker back up start to the same day coverage and no issue provide to the field.

Compilation of Data :. When the

worker and Area Supervisor come back from the CUS then wepo arrange the evening meeting to discuss the issue and compilation of the Data.

UNICEF United Nations International Children's Emergency Fund
EPI Eradication Polio Immunization
LQAS Last Quality Asses
EOC Emergency Operation Center
RCM Recd. Campaign Monitoring

Q.NO.2:) Write Short Answers of the following Questions- (Marks-10)

- 2.1- How does polio spread? 2- Marks
- 2.2- Differentiate between IPOV & OPV Vaccine administration? 3- Marks
- 2.3- Briefly explain the effectiveness of IPV vaccine? 2- Marks
- 2.4- What is zero Dose & how to identify, vaccinate & record it. 3-Marks

Q.No.3)- What are creative methods to access the following target population groups: (Marks-10) Religious Ethnic minority groups
Families working in Harwest

Q.No.4)- Enlist Issues during same day coverage & compilation of data?(Marks-05)

Q.NO.5)- Write a letter to your supervisor regarding Fake data reporting of one of your ALSM, asking him for issuance of warning letter to him (Marks- 10)

Q-4 Enlist issue during same day coverage & completion of data.

Ans: During same day coverage the following issue are recorded

⇒ if the C.H.W not visite in the same day and it hold the code of the same it put & tack the NA, OR refusal DOR

⇒ Every C.H.W coverage is postive by NA coverage

⇒ when AIC ~~fill the~~ Fill the Form 2A it record the data if the CHW not visite the same day it may differant.

Q-1. How does polio spread?

Ans: Polio virus present in the air or atmosphere when child play in a fasel are these virus injected through mouth of the children and viruses stick into the intestine of children.

Polio virus spread from from intestine to spinal cord and affect the legs, Neck and throat of the children.

This process repeated and the AFP child stool may effect the healthy child.

Q-2. Difference b/w OPV & IPV

Ans: First one is oral polio vaccine which gives by mouth directly in the form of drops & the (IPV) injected polio vaccine are given by injection.

Q-3 - Effectiveness of IPV vaccine

Ans: Injected Polio vaccine are used in some time but ~~the~~^{its} effected the legs of the children or effect the arm of the children due to unexperience person of EPI staff that's why known it used in OPV.

Q-4 - Zero Dose vaccination & Records

Ans: Zero Dose is usually that children which time is no BCG in the age of that child still in 22 months

Zero Dose children actually called NB child. They zero dose children are those which they not injection like BCG, OPV & any rota vaccination

Q. 5: what are the creative method to access

the following target population groups (Ethnic, religious, minorities, nomads, refugees, undocumented residents of urban city periphery, families working in haramats)

Ans: The target population are the following

like (Religious, Ethnic minority, nomads, refugees, Undocumented residents of urban city periphery, families working in haramats.)

These population are the large population of polio worker.

⊗ Religious people some people have the religious issue and it convenes through religious meetings

⊗ Ethnic minorities people are those which they work at other religious party like hindu sect

⇒ Refugees: These people which ^{OR AFGHAN} already migrated to Pakistan they are the target of the C.H.W

⇒ Undocumented people: These people which recently migrate to new area and they have no record in that population like (IDPs)

⇒ Families working in haramats: These people which work on other area and their families are shifted

To
The Supervisor
of UC Alimajid-B
area Natukhel

Subject: Fake data reporting

Dear Sir:

I have to inform you that ABSM
do not work properly because the
refusal of the sad area are still
in the same position. They have no
meeting and awareness ^{session} of the following
people and he is already reported
to you. The meeting & awareness sessions
so please all the information about the
data is wrong, so it is to inform that it may
be a warning letter.

Your faithful worker

Q.No.3)- What are creative methods to access the following target population groups: (Marks-10)

- ① Religious and ethnic minority groups
- ② nomads
- ③ Refugees
- ④ undocum resided in urban city post

Q.No.4)- Enlist Issues during same day coverage & compilation of data?(Marks-05)

- ① Family workers on the ~~data~~ ~~report~~ ~~order~~

Q.NO.5)- Write a letter to your supervisor regarding Fake data reporting of one of your ALSM, asking him for issuance of warning letter to him (Marks- 10)

Q No 2:

Ans: 2:1 : Polio is a virus disease which can spread easily from one person to other.

- * Polio can spread in waste material.
- * Polio can spread in Air and water.
- * Polio can spread in Food etc.

(1)

Ans 2:2 : Difference b/w IPV and OPV.

The main difference between these two are

- * Oral polio vaccine: it takes orally to the child.
- * Injected polio vaccine: it takes by injected to the child.

Note: OPV is more safe than IPV.

(2)

Ans 2:3 : Effectiveness of the IPV vaccine

Inactive polio vaccine effected the single. IPV is used to save child from different diseases while P₁ and P₃ are used to build the immunity system strong and save the child from paralysis. IPV is more strong than OPV and also hard.

P . T . O

Ans 2.4: Zero does contain all vaccinees of the Essential immunization which provid to the child under 2 years. In zero does

(2) a child pass through following vaccine,
BCC₁, P-1, P₂, P₃, Measle, Mers₂ and DPT etc

Ans: No 3: (i) Religious and ethnic minority group

For this purpose we have to use Redo and sweep method because there is different communities.

Refuge: This is the high risk data b/c it change with the passing of the time Redo and sweep should be apply & undocumented resident & the population is also risky for polio case. b/c it change with the passing of the time for this purpose there is need permanent data record so we conclude that have its work carefully in the populated area. b/c the polio virus can not control in the populated area. For this purpose we have to use the following main factor.

- (1) Acute flaccide paralysis
- (2) vaccination coverage in populated area
- (3) Essential immunization
- (4) Other activities which is related with polio eradication.

ANS No 5 :

Ans

To,

The Supervisor

Police

Jamal Khyber

Sir,

6

It is state that last comparing
you provide false data to the authority
which made very difficulties in the
field.

It is there for warning

you that next time take
care and do not provide

false data, this is your

last chance

Yours sincerely

Q)-Write correct abbreviations of the following (Marks-05)

UNICEF United nation international children Emergency Fund ✓
EPI Expanded program on immunisation ✓
LQAS Lot Quality assurance sampling ✓
EOC Emergency operational centre ✓
RCM

Q.NO.2:) Write Short Answers of the following Questions- (Marks-10)

2.1- How does polio spread? 2- Marks

2.2- Differentiate between IPOV & OPV Vaccine administration? 3- Marks

2.3- Briefly explain the effectiveness of IPV vaccine? 2- Marks ✓

2.4- What is zero Dose & how to identify, vaccinate & record it. 3-Marks

Q.No.3)- What are creative methods to access the following target population groups: (Marks-10)

① Religious and ethnic minority, ② Nomads, ③ Refugees
④ Undocumented Residence of urban city like Peshawar.
⑤ family working

Q.No.4)- Enlist Issues during same day coverage & compilation of data?(Marks-05)

Q.NO.5)- Write a letter to your supervisor regarding Fake data reporting of one of your ALSM, asking him for issuance of warning letter to him (Marks- 10)

Q2.2

Ans:

OPV is oral polio vaccination. It provide protected by mouth in the intestine and then the blood. It does not require well trained worker it is easily administrated.

IPV is injectable polio vaccine. It provide protected in the blood. It as required a trained worker. IPV protected child more from polio virus 60%.

Q2.1

Ans:

Polio Spread, polio as also know as polio myelitis. polio as highly contagious disease that attack through nervous system. children less than five year old are contracted by virus then any other group.

- (1) Under cooked food.
- (2) Through air.
- (3) child stool.
- (4) unwashing hand.

Q2.4

Ans:

Zero Dose Zero Dose :- that children who are not vaccinated. We can find easily by ^{polio} worker. He visited home and new born find out. then we can easily vaccinated the child and record it.

Q2.3

Ans:

IPV as injective polio vaccine. It required trained technician. IPV will take the right thigh. child protected 60% by IPV. By that vaccine child will take some favor.

Q3

Ans: Creative method to access the following target population group.

(1) Religious: we can easily achieve this target. If we have a good Religious people support and aware the people in Religious way. eg in Mosques

(2) Nomads: Nomad are come from one place to another place. So we can achieve this target by fixed team or train local team and record data in fatty street.

(3) Refugees: Refugees is come from other country and settled here. If we have Refugees in local area we record it and vaccinated easily. If refugees is far then team will vaccinated ~~at~~ it his area.

(4) Undocumented Residence: To Achieve this target

we can take some Question like where are you from and come. Then we contact the same VC to verify and vaccinated for desire level of performance.

(5) Family working: Family working achievement easily by femal health worker and to use good IPC Skills.

Q4

Ans: Same day Coverage & Compilation of data:

Same day coverage are those if I not achieve it tomorrow when I back to again I cover some child. we try to complete 100% coverage in same day. when come back to center we compile data and share with Area Supervisor and upo to forward D.H.SCO.

- B. Four
- C. Five
- D. Six

4: Social Mobilization for polio comprises of:

- A. Engaging Community Influencers
- B. Conducting awareness raising sessions
- C. Utilizing existing community based organizations ✓
- D. Sensitizing religious leaders on polio
- E. All of the above

5: While giving polio vaccine, it is important to remember that

- A. It is stored at room temperature X
- B. Each child gets four drops of polio vaccine
- C. It is given to the child in sunlight
- D. None of the above

B): Fill in the blanks (5 marks):

5

- a) Distributing Mosquito Nets is necessary part of polio campaigns *False* ✓
- b) During polio campaign OPV drops are given to all the less than five years old children *True* ✓
- c) Polio disease is caused by Mosquito Bites *False* ✓
- d) Improving personal hygiene & sanitation will result in decreasing polio cases *True* ✓
- e) Vitamin A cannot be given during polio campaigns *False* ✓

Q-Write correct abbreviations of the following (Marks-05) 5

- UNICEF *United Nation International Child Emergency fund* ✓
EPI *Expanded Programme on Immunization* ✓
LQAS *Lout Quality Assurance Sampling* ✓
EOC *Emergency Operation Center* ✓
RCM *Rapid Campaign Monitoring* ✓

Q.NO.2:) Write Short Answers of the following Questions- (Marks-10)

- 2.1- How does polio spread? 2- Marks
- 2.2- Differentiate between IPOV & OPV Vaccine administration? 3- Marks
- 2.3- Briefly explain the effectiveness of IPV vaccine? 2- Marks
- 2.4- What is zero Dose & how to identify, vaccinate & record it. 3-Marks

Q.No.3)- What are creative methods to access the following target population groups: (Marks-10)

Religious and Ethnic Group
family working as *Homeless*
nearest *Refugees*
undocumented *Residence of minority*
urban citizen.

Q.No.4)- Enlist Issues during same day coverage & compilation of data?(Marks-05)

Q.NO.5)- Write a letter to your supervisor regarding Fake data reporting of one of your ALSM, asking him for issuance of warning letter to him (Marks- 10)

②
Ans OPV = oral polio vaccine easily
administered through body.

IPV = injectable polio vaccine.

①
Answer :- Polio virus is very contagious. It spreads
it spread through contact with stool (poop) of
infected person or droplets of snot or sneeze or
cough. If you get stool or droplets from
infected person on your hand & you touch
your mouth, you can be infected.

Q2 Ans Zero Dose are which are not vaccinated by any Polio Team during the recent Polio Campaign. After birth the is vaccinated in hospital through 1PU (BCG) vaccine.

3

Q3 Creative methods:-

Religious & Ethnic Groups - To ensure the best result it is necessary to talk with Religious leader the leader of ethnic groups to aware them about the effect of Polio Disease on their children and their family and as well the adverse effect on their future.

4

Refugees - To vaccinate the Refugees children it is necessary to visit their Camps and the place where they stay

to vaccinate all these children
to save them from polio & their
stop their spread ✓

Q4 Issue in

- 1- Far Teams are mostly not reaching time.
- 2- Security persons are not reached their location on times.
- 3- Transportation is required for far areas.
- 4- most of the respondents take much time or they not available at time of team visit.
- 5- Some time childrens are not available at time of team visit.
- 6- Some families and children are refusal due to which daily target is effected.
- 7- weather condination is another issue which effect daily target complication.
- 8- Some area are as far where there is no roads and available and not any source of transportation, teams goes there through walk which effect daily coverage.

From: X, Y 2.

UCPO Alimasjid B.

Q.No.3)- What are creative methods to access the following target population groups: (Marks-10)

Religious and Ethnic minority groups
Nomads, Refugee
Undocumented Resident like Peshawar
family working on harvest

Q.No.4)- Enlist Issues during same day coverage & compilation of data?(Marks-05)

Q.NO.5)- Write a letter to your supervisor regarding Fake data reporting of one of your ALSM, asking him for issuance of warning letter to him (Marks- 10)

2.1 جواب :- پولیو متاثرہ بچے کے فعلہ / پانخانے سے پھلتی ہے جو گندے ہاتھوں کے ذریعے منہ میں اندر داخل ہوتا ہے

2.2 جواب :- IPV کے معنی ہے Inactivated Poliovirus vaccine یہ انجکشن کے ذریعے بچے کا جسم میں داخل ہوتا ہے۔

OPV = Oral Polio vaccine یہ منہ کے ذریعے بچے کو دیا جاتا ہے (پانچ سال تک عمر)

2.3 جواب :- IPV بچے کو پولیو سے قوت و مدافعت دیتا ہے خاص کر P2 سے P1 P3 سے - IPV جس بچے کو لگائے جائے وہ تو خود محفوظ ہوتا ہے

2.4 جواب :- دو سال سے کم عمر کا بچہ / بچی جس کو ~~یکساں~~ ایک بھی حفاظتی ٹیکہ نہ لگایا ہو۔

دو سال سے کم عمر کا بچہ / بچی جس کو حفاظتی ٹیکوں کا کورس شروع نہ کیا گیا ہو یہ CHW گھر پر جا کر گھر میں پوچھتا ہے کہ اس بچے کو آپ نے ٹیکہ لگایا ہے اگر گھر والے یاں ہم نے لگایا تو ہم اسکی مادہ جیڈ کرتے ہیں اور اگر وہ کہے کہ ہم نے نہیں لگائیں تو CHW Missed children List کے پشت پر اسکا ڈیٹا لیتے ہیں۔ (MCL)

مثلاً: گھر نمبر - بچے کا نام - والد کا نام - عمر - مکمل پتہ - فون نمبر - اور ویکسینیشن کے لئے کمپین کے بعد EOR میں اس کو گور کرتا ہے۔

3 Religious and Ethnic minority groups = سب سے پہلے ALSM اور UCCO کا رول اس میں آتا ہے۔ اگر اس کے ساتھ میٹنگ، سیشن کرایا جائے۔ تو یہ

ہمارے لیے پولیو میں اہم کردار ادا کر سکتا ہے۔

Nomads :- Nomads اگر CHW Microcensus میں اسکا ڈیٹا اکٹھا کر تو یہ ہم پلان میں آسانی کر سکتا ہے

Undocument Residence etc :- خاص کر ہم سے وہ بچے مسڈ ہوتے جو ہمارے ریگارڈ میں نہ ہو۔ ہمیں جانے گھر گھر کر کے شادی شدہ ریگارڈ کر کے آگے بڑھانے

Family working on harvest
اس لیے بھی ہم کو گھر گھر جائے پوچھنا چاہیے۔
Note: نثر یہ سب کچھ اگر CHW دیکر سینٹر اچھا طریقے سے
کریں یہ تب ملن ہے۔

Q4: Same Day Coverage -! Same Day Coverage
میں یہ مسئلہ پیش
آتا ہے۔ Catch up کوڈ سے پہلے واپس آتا ہے۔ ولا
یارہ 12: Pm تک انتظار نہیں کرتے۔

Q5: CVS فالو اپ نہیں کرتے۔ یعنی Community Vaccination site
اس سے پہلے ہم اس
کو ٹک سٹیشن بھی کہتے ہیں۔
اس گھر کا دوبارہ دورہ نہیں کرتے۔
